## Module 01

- 01. Intro to programming, variables and data types
- 02. Conditional and Loop
- 03. Intro to Git & Exercise
- 04. Array and Functions
- 05. Exercise
- 06. Object Oriented Programming
- 07. Exercise
- 08. Data structure
- 09. Exercise
- 10. Algorithm
- 11. Advanced Topic
- 12. Exercise
- 13. Intro to Test Driven Development and Suplementary Material
- 14. Exercise
